

FOOTNOTE SECTION

- 1/ Vacant seasonal/migratory units are excluded from all matrices except as noted specifically in the documentation.
- 2/ The farm population is defined as persons living in rural territory on places from which \$1,000 or more of farm products were sold in 1979. In 1970, the definition included all rural places with sales of \$250 or more, plus rural places of 10 or more acres with sales of \$50 to \$249.
- 3/ The count of households in sample tabulations may differ from the number of occupied housing units. This is a result of the weighting process used to minimize differences between complete counts and sample estimates. An indication of the type of weight (population or housing) for each matrix is listed in footnote 50.
- 4/ "Asian and Pacific Islander," in the 100-percent tabulations, includes "Japanese," "Chinese," "Filipino," "Korean," "Asian and Pacific Islander," "Vietnamese," "Hawaiian," "Guamanian," and "Samoan." "Asian and Pacific Islander," in sample tabulations, includes the groups listed above and those persons who have a write-in entry of an Asian or Pacific Islander group in the "Other" category.
- 5/ For data tabulated on a 100-percent basis, includes all persons in the category "Other." For data tabulated from the sample, excludes those persons who have a write-in entry of an Asian and Pacific Islander group in the "Other" category.
- 6/ This category refers to write-in entries of Spanish groups in the race question. Such entries are not necessarily consistent with responses to the Spanish origin question.
- 7/ Tabulations of "Persons in household" based on 100-percent data by definition are the same as tabulations of "Persons in unit." The phrase "Persons in household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case, the phrase "Persons in unit" is used. Tabulations of "Persons in household" and "Persons in unit" based on sample data are not necessarily the same because of differences in the procedures used to impute sample population and housing data.
- 8/ Relatives include householder, spouse, and the questionnaire categories: "Son/daughter," "Brother/sister," "Father/mother," and "Other relatives." Tabulations of "Other relatives" include all categories not shown separately in the matrix.
- 9/ "Nonrelatives" include the questionnaire categories: "Roomer, boarder," "Partner, roommate," "Paid employee," and "Other nonrelative." Tabulations of "Nonrelatives" include all categories not shown separately in the matrix.
- 10/ A "Child of householder" includes any son, daughter, stepchild, or adopted child of the householder. An "Own child of householder" is a never-carried child under 18 years of age who is a son, daughter, stepchild, or adopted child of the householder. "Related children" include not only own children but also all other family members, regardless of marital status, who are under 18 years old, except the householder or spouse. Foster children are included in the "Nonrelative" category. In subfamilies an "own child" is a never-carried child under 18 years of age who is a son, daughter, stepchild, or adopted child of a mother in a mother-child subfamily, a father in a father-child subfamily, or either spouse in a married-couple subfamily.
- 11/ Tabulations for households and families are classified by the race and Spanish origin of the householder.
- 12/ This aggregate, along with relevant count, will permit the computation of a mean. For example, the aggregate value for specified owner-occupied noncondominium units will yield the mean value when divided by the count of specified owner-occupied noncondominium units, and the aggregate rooms for occupied and vacant year-round units divided by the count of occupied and vacant year-round units yields mean rooms. (See footnote 35 prior to computing mean value or price asked.)
- 13/ Includes responses indicating religious groups and unclassifiable responses.
- 14/ Persons may be counted more than once in this tabulation.
- 15/ "Ever married" includes the questionnaire categories: "Now married," "Separated," "Widowed," and "Divorced."
- 16/ "Not reported" means place of work was not reported at all or was not reported at least to the county level. One exception to this is in the treatment of New York City, where a response of "New York City without reporting county (borough)" is treated as reported. In tabulations, "reported" cases that are not reported to the area required for a specific tabulation are treated as reported but as working outside of that area. For example, for place of work tabulations at the place level, in a case where the place of work was reported only to the State and county levels, the response is tallied as working outside of the place.
- 17/ An identified place is a place, with a population of 2,500 or more (1,000 or more in Alaska and Hawaii) generally based on 1977 population estimates, that was recognized in previous geography. In mail enumeration areas, identified places were those recognized as of January 1, 1978; in conventional enumeration areas, identified places were those recognized as of January 1, 1979. Population estimates for identified places which incorporated after 1977 are based on the best available information.
- 18/ "Public transportation" includes "Bus or streetcar," "Railroad," "Subway or elevated," and "Taxicab."
- 19/ "Means of transportation to work" includes "Car," "Truck," "Van," "Bus or streetcar," "Railroad," "Subway or elevated," "Taxicab," "Motorcycle," "Bicycle," "Walked only," "Worked at home," and "Other." Tabulations of "Other means" include all categories not shown separately in the matrix or not specified as "Public transportation." (See footnote 18.)

- 20/ Veterans are classified by the most recent period of service, excluding peace time service.
- Households may be counted more than once in this tabulation.
- 22/ In this matrix, the aggregate income figures refer to the amount of income for each specific type separately (e.g., the first aggregate shows the total amount of wage or salary income received by households in 1979.)
- 23/ Tabulations of poverty status exclude inmates of institutions, persons in military group quarters and in college dormitories and unrelated individuals under 15 years. (See footnote 54.)
- 24/ Vacant housing units include the questionnaire categories: "For rent," "For sale only," "Rented or sold, not occupied," "Held for occasional use," and "Other vacant." Tabulations of "Other vacants" include all categories not shown separately in the matrix.
- 25/ "Units in structure" includes "A mobile home or trailer," "A one-family house detached from any other house," "A one-family house attached to one or more houses," "A building for 2 families," "A building for 3 or 4 families," "A building for 5 to 9 families," "A building for 10 to 19 families," "A building for 20 to 49 families," "A building for 50 or more families," "A boat, tent, van, etc." Tabulations of "Mobile home or trailer, etc." include "A mobile home or trailer," and "A boat, tent, van, etc."
- 26/ "Utility gas" includes "Gas: From underground pipes serving the neighborhood."
- 27/ Fuels include "Utility gas" (see footnote 26), "Bottled, tank or LP gas," "Electricity," "Fuel oil, kerosene, etc.," "Coal or coke," "Wood," "Other fuel," and "No fuel used." Tabulations of "Other" include all categories not shown separately in the matrix.
- 28/ "Vehicles" includes automobiles, trucks, and vans.
- 29/ Gross rent and contract rent are tabulated for all "renter-occupied" units except one-family homes on a property of 10 or more acres. Units tabulated in the "No Cash Rent" category also exclude one-family homes on 10 or more acres. A unit classified as "No Cash Rent" in contract rent will
- remain no cash rent in the gross rent distribution even if the unit's occupants pay for utilities themselves. Gross rent is the sum of contract rent and utility costs. Rent asked is tabulated for "vacant-for-rent" units except one-family homes on 10 or more acres.
- 30/ "Utilities" include "Electricity," "Gas," "Water," and "Oil, coal, kerosene, wood, etc."
- 31/ Includes households with zero or negative income and units tabulated in the "No Cash Rent" category.
- 32/ "Selected Monthly Owner Costs" is the sum of payments for real estate taxes, property insurance, utilities (see footnote 30), and regular mortgage payments.
- 33/ The noncondominium value and selected monthly owner costs distributions are restricted to certain kinds of "owner-occupied" or "vacant-for-sale only" units. The following are excluded from the tabulations on value for noncondominium units:
- Units at an address with two or more units.
 - Units on 10 or more acres.
 - Units with a commercial establishment or medical office on the property.
 - Mobile homes or trailers.
- 34/ Includes households with zero or negative income.
- 35/ Multiply the aggregate value by \$250 to obtain the true value. The tabulation was scaled by a factor of 250 for tally purposes.
- 36/ "With central heating system" includes "Steam or hot water system," "Central warm-air furnace," "Electric heat pump," "Other built-in electric units," and "Floor, wall, or pipeless furnace." "Lacking central heating system" includes "Room heaters with flue," "Room heaters without flue," "Fireplaces, stoves, or portable room heaters," and "None."
- 37/ Lacking complete plumbing (facilities) for exclusive use includes: Complete plumbing (facilities) but also used by another household, some but not all plumbing facilities, or no plumbing facilities.
- 38/ These counts are not available for summary levels on STF 1, file B. Zero (0) will be shown.
- 39/ See Appendix B2 for language codes.
- 40/ See Appendix B3 for ancestry codes and for definition of single and multiple ancestry.
- 41/ See Appendix B4 for definitions of inmate status (noninstitutional and institutional) and for type of group quarters codes.
- 42/ See Appendix B5 for industry codes.
- 43/ See Appendix B6 for occupation codes.
- 44/ Per capita income is calculated by dividing the aggregate income for persons 15 years and over by the total number of persons in the group.
- 45/ See Appendix B7 for definition of labor force status categories.
- 46/ Period of service includes "May 1975 or later," "Vietnam era," "February 1955 to July 1964," "Korean conflict," "World War II," "World War I," and "Other service." Tabulations of "Other" include all categories not shown separately in the matrix.
- 47/ See Appendix B1 for race codes.
- 48/ Includes cases classified as "reported" and as "not reported" for place of work.
- 49/ Excludes Armenian, Georgian, Ruthenian, Ukrainian, and Belorussian.
- 50/ Each sample person and housing unit was assigned a weight as the result of a complex ratio estimation procedure. Sample housing units were assigned one weight each and sample persons were assigned two types of weights. The first weight for persons applies to sample data except Place of Work, Travel Time to Work, and Migration (i.e., Residence in 1975) tabulations; this weight was assigned to all sample persons. The second weight for persons, which applies to Place of Work, Travel Time to Work, and Migration data, was assigned to those sample persons who were included in the Place of Work and Migration coding operation. These weights vary from person to person and from housing unit to housing unit, but on the average they are approximately equal to the inverse of each records sample selection probability. The tabulations in this file are based on summing the weights of the appropriate persons or housing units relating to the tabulation. For specified aggregates, indicated below,

the characteristic data are multiplied by the weights; for example, in aggregate income for persons the amount of income is multiplied by the weight. In medians, the weights are brought to bear indirectly through the distribution used to calculate the measure. For family and household tabulations (population type), only the weights of the householder are used. For subfamily tabulations, the weights used are those assigned to the subfamily reference person (i.e., the person who is the equivalent of a householder for the subfamily). The following is a listing of the weights used in producing each tabulation:

Persons weights -- tabulations 1, 7, 8, 12-17, 19, 22, 24-67, 81-85, and 90-95.

Note: Tabulations 31, 60, 64, 83, and 84 are aggregates.

Tabulations 34-39, 41, and 42 use the Place of Work, Travel Time to Work, and Migration weight exclusively. Tabulation 42 is an aggregate.

Tabulations 82 and 85 are derived measures.

Householder (person) weights -- tabulations 9, 10, 13, 20, 21, 68-80, and 86-89.

Note: Tabulations 70, 72, 77, 78, and 80 are aggregates. Tabulations 69 and 74 are derived measures.

Subfamily reference person weight -- tabulation 23.

Housing Unit Weights -- 4, 11, and 96-150.

Note: Tabulations 100, 101, 104, 128, 129, 137, 140, and 141 are aggregates.

Tabulations 127 and 134 are derived measures.

Unweighted Counts -- Tabulations 2, 3, 5, and 6.

Note: Tabulations 2 and 5 are actual (unit) counts of persons and housing units in the sample. Tabulations 3 and 6 are 100-percent counts of persons and housing units.

Includes females who are a householder, a spouse of householder,

a mother in a mother-child subfamily, or a female spouse in a married-couple subfamily.

52/ Not used.

53/ Code ranges may include codes which are not used.

54/ "Unrelated Individuals" include nonrelatives in family households, persons in nonfamily households, and noninmates in group quarters.

55/ The term "cell not used" indicates that a data item or "cell" contains no data.

56/ Not used
